## GLP-1 Zepbound® Program

December 26, 2025

Zepbound® and its delivery device base and LillyDirect® are registered trademarks owned or licensed by Eli Lilly and Company, its subsidiaries, or affiliates.

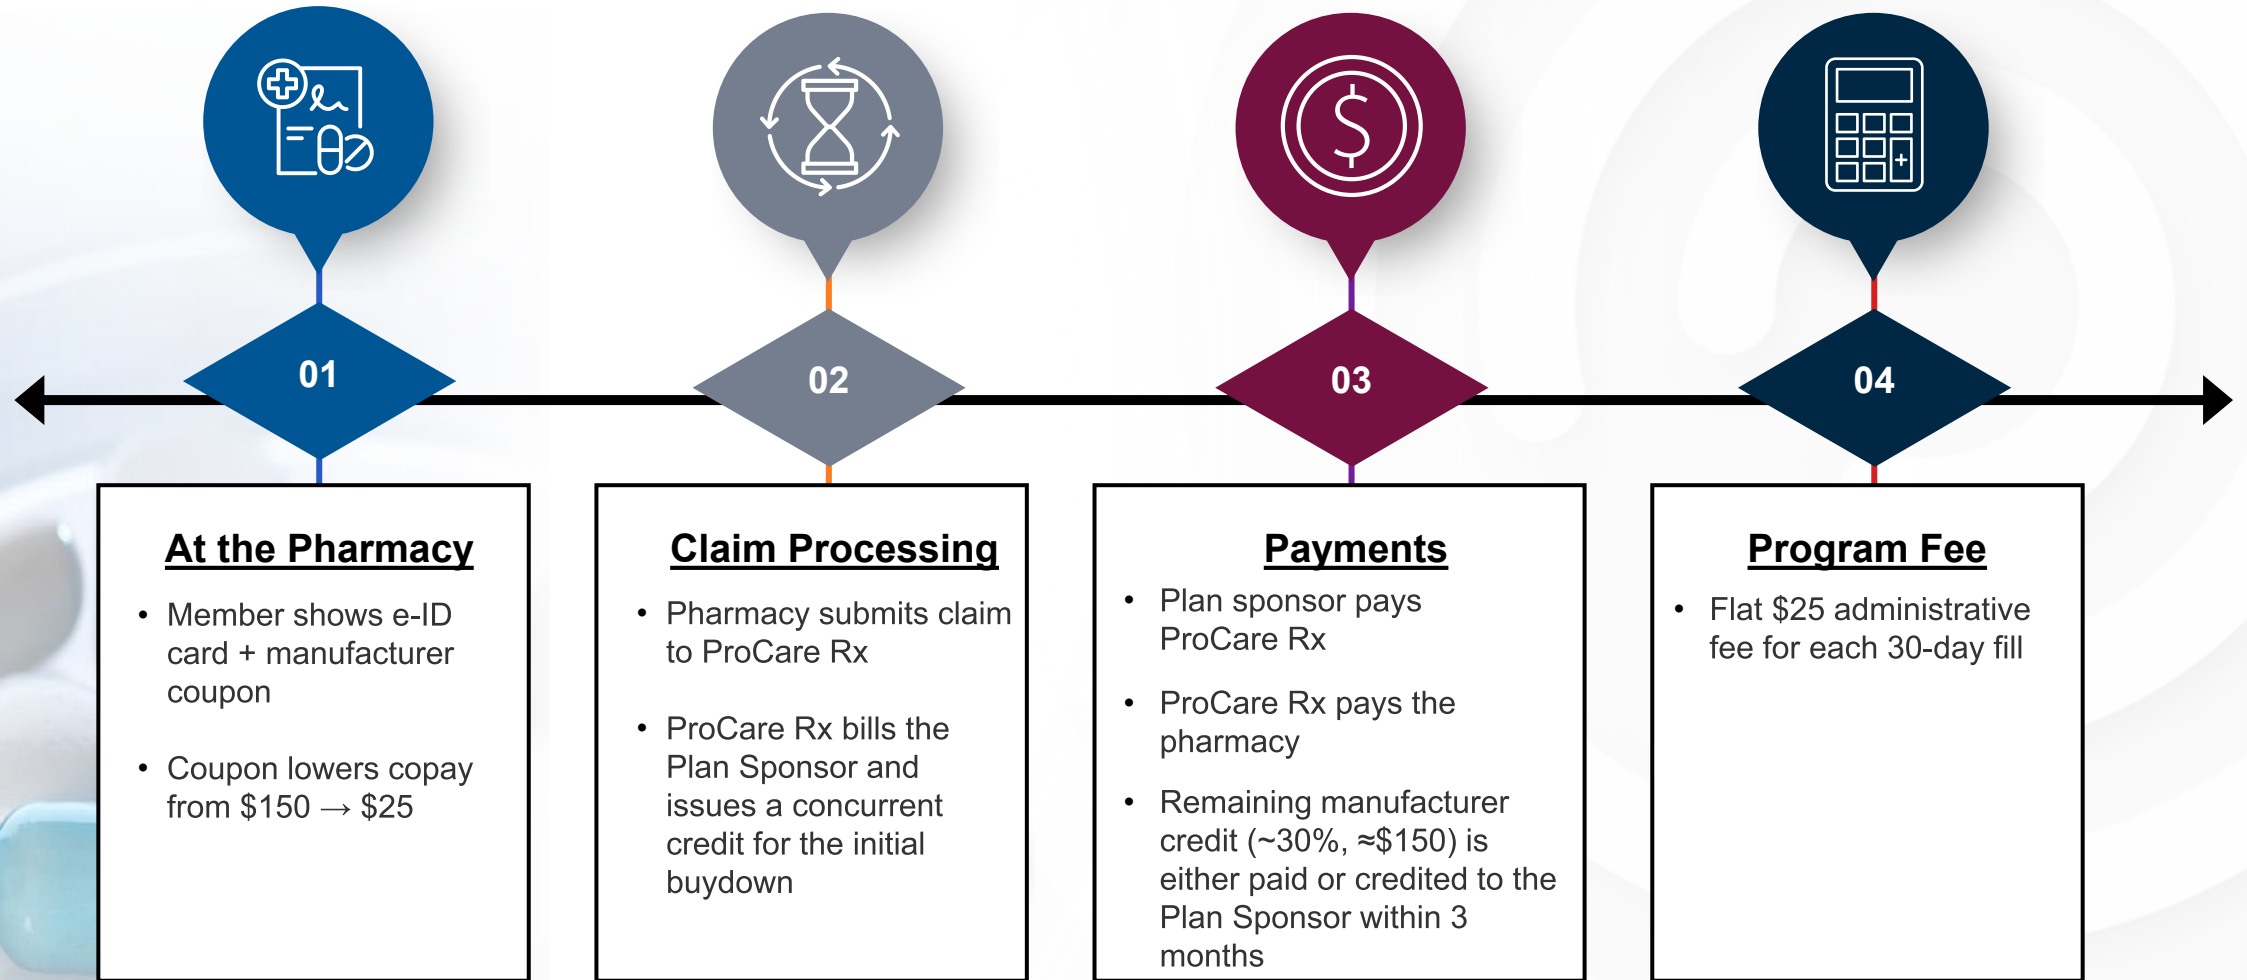

# Agenda

- Review Program
- Illustrative Savings Example
- How it Works
- Implementation Needs
- Questions

# Program Overview

- Full branded product program
- Retail distribution and direct manufacturer buydown
- Similar financial benefits of the LillyDirect® to member program
- Structured to coordinate with plan sponsor's current plan benefit design and/or standalone wellness programs
- Copay Max - \$150 for 30 days' supply (for eligible members) and no more than \$25 when using the Lilly co-pay assistance program
- Plan sponsor receives accelerated manufacturer buydown of ~50+% of plan pay vs ~30% time lagged standard rebate
  - Net plan sponsor cost averaging <\$500 depending on retail pharmacy pricing
  - Buydown credits include immediate credit to plan sponsor billing for ~70% of projected buydown and balance at 3 months post fill month.

# How It Works

# Needed from Plan Sponsor

## Contract

- Current clients can amend current plan
- New clients will have to execute a streamlined PBM contract limited to this program

## Benefit Plan Design

- Frictionless PA required
  - current members on treatment are automatically eligible with any new prescriptions not being subject to restrictive requirements.
  - Carve-out plan will allow plan sponsors to manage any program participation requirements prior to providing eligibility
- Typical implementation requires copay which can be no more than \$150 but may also be offset at point of sale by the manufacturer coupon; network, etc.

## ID Cards

- Issue ID Cards to members
