Flex Card Benefits

The Flex Card is designed to be cost effective and to provide a wide selection of drugs at an affordable price. Listed pricing is available **ONLY** at Preferred Pharmacies. However, discount pricing is available at most chain and independent pharmacies in the United States and Puerto Rico.

This Preferred Drug List (or “PDL”) has three (3) primary copay levels for the drugs listed for the quantity and strength shown when using Preferred Pharmacies:

- “Tier 1 Preferred Drugs” may be available for \$10 or less
- “Tier 2 Preferred Drugs” may be available for \$25 or less
- “Tier 3 Preferred Drugs” may be available for \$50 or less
- “Tier 4” drugs are all other drugs available to you for 100% copay, regardless of quantity, strength or pharmacy used
- Note: Drugs not specifically listed are offered to you at a pre-negotiated discounted price at 100% copay.

Show this brochure to your physician for their review – although final prescribing should always be their decision.

Preferred Drug List (PDL) Updates

The PDL tiers may be revised if price changes occur during the quarter. In the event that a drug price changes during a quarter and moves to a different tier, you will be charged the applicable copay based on the new price of the drug.

Generic Drug Policy

It is recommended that Over-the-Counter products or generic drugs (same chemical, strength, dosing, clinical performance, quality, etc.) should be used before the brand name drug is prescribed, when available. If a generic drug is not clinically equivalent, we do not recommend substitution.

Anti-Obesity/Weight Loss GLP-1 Program

GLP-1 (Anti-obesity drugs) have proven to be extremely effective in assisting with weight loss. However, due to their cost, many payers have excluded them from coverage.

 zepbound®

 wegovy™
semaglutide injection 2.4mg

While our program offers significant discounts on GLP-1s, we strongly suggest you download Manufacturer COPAY CARDS to bring to the pharmacy to further assist in reducing the cost.

Available Pharmacies

The Flex Card Discount program utilizes a wide range of pharmacies – classified as Preferred or Independents (pharmacy groups like Medicine Shoppe or Epic Rx fall under independent pharmacies). Below is a partial listing of Preferred Chain Pharmacies that should be used to fill your prescriptions...these pharmacies offer the best prices, with your copays being closest to those shown in this brochure. Other pharmacies may offer a potentially higher price, with the drugs being in higher tiers.

Preferred Chain Pharmacies

Independent Pharmacies

Accepted by most independent stores nationwide

Cost Saving Mail Service Benefit

Your prescription benefit also includes a mail service option that allows up to a 90-day supply of your medication. Our mail order partner, ProCare Rx PharmacyCare, offers very good discounts that can save an additional 5% to 25% over retail pharmacy prices, with the convenience of home delivery.

For more information regarding your mail service benefit, please call Member Services at **855-828-1484** or the pharmacy at **800-662-0586**.
